

Panasonic and Tesla: Two of the world's most epically criminal companies have joined forces

Panasonic

By Dean Evers
LA Digital Weekly

Tesla Motors bribes The White House and Senators, evades taxes, kills its own customers with bad engineering, finances rigged elections, runs quid-pro-quo payola schemes with the Department energy, lies, fakes-up sales orders, promoted the Afghan war in order to control lithium mines in Afghanistan, uses cheap overseas labor after taking taxpayer cash, bribes the Department of Transportation to not investigate it, runs cover-ups of its massive number of safety defects and more. You would think this would make Tesla and Elon Musk the “Most Corrupt” of the Dirty Duo but, guess what? Panasonic is an evil more corrupt company.

Panasonic has killed workers with it's deadly toxic battery manufacturing facilities. Panasonic has engaged in massive bribes to public officials. Panasonic is now working with Tesla to seek to “dump” it's failed lithium ion batteries on the U.S.A. In addition to using Tesla to run it's American dumping schemes, it also works with Tesla/Musk to run vast tax evasion schemes at the expense of the U.S. Treasury. So far, the White House has ordered protection for Panasonic because an FBI raid on Panasonic will expose the creepy criminal empire of Elon Musk right along with it. Musk has a quid-pro-quo alliance with the White House and FBI-files on Musk could bring down Obama. Panasonic does its corruption on a vast scale while Musk's corruption is mostly USA-based.

Usually, the executives of a Japanese company like Panasonic will commit Hari Kari when confronted with this kind of “loss of face”. Not so with the Panasonic executives. They just thumb their noses at the disclosures and run out and buy a few more hookers. These Panasonic-ians have no shame.
